

SPECIALISM BROCHURE 2025

www.cabinsgb.co.uk

CabinsGB was founded in 2010 with the goal of becoming the main supplier of portable cabins and modular buildings in the local area.

Introduction

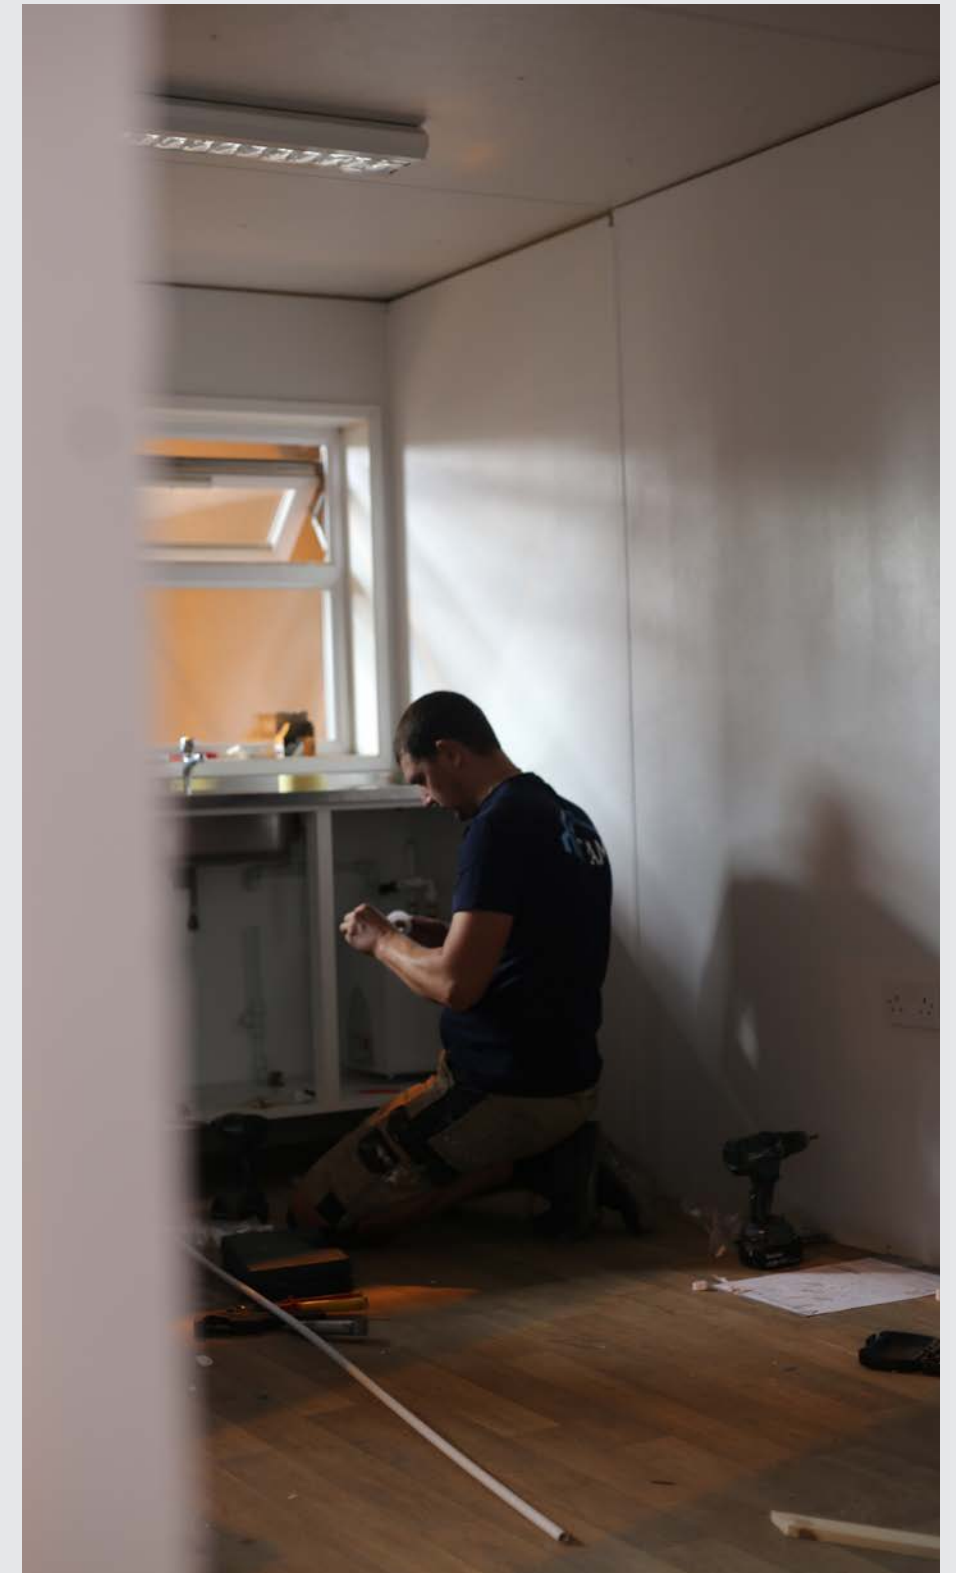

CabinsGB have been trading since 2010. Our initial aim was to become the preferred supplier of refurbished portable cabins and modular buildings in the local area. In 2025 we now supply accommodation solutions across the whole of the country, operating in many sectors and industries including Education, Health, Defence, Agriculture, Film, Transport, Manufacturing and Construction.

Based in Cambridgeshire we maintain a stock of around 300 new and used cabins including modular buildings, Containex buildings, jackleg cabins, antivandal cabins, containers & stores. Applications include offices, canteens, changing rooms and toilets.

The management team has over 100 combined years of industry experience with some of the most recognisable names in the industry. CabinsGB has now grown to employ over 40 people, both factory and office staff, from the local area.

We deliver projects that include large scale modular building works acting as the main contractor for large international companies, as well as one-off cabin and container sales to end users. We deal with each and every enquiry with the same level of courtesy and all of our clients, no matter how big or small, are treated with the same importance.

Our dedicated and professional team are sure to be able to find the correct solution to your accommodation needs.

Over 250 cabins, containers & modular buildings in stock now.

Modular Buildings.

Modular Buildings

Our team have worked on some of the biggest construction projects in the UK and have a combined experience of over 100 years in the modular building industry.

Modular buildings are formed from individual units bolted together to form larger more permanent facilities. Over the years we have supplied buildings of up to 1000m².

Modular buildings can be fitted out to meet specific applications.

Applications include:

- Corporate offices
- Classrooms including complete schools
- Site accommodation
- Retail units
- Sports changing facilities
- Clubhouses
- Visitor centres

These include:

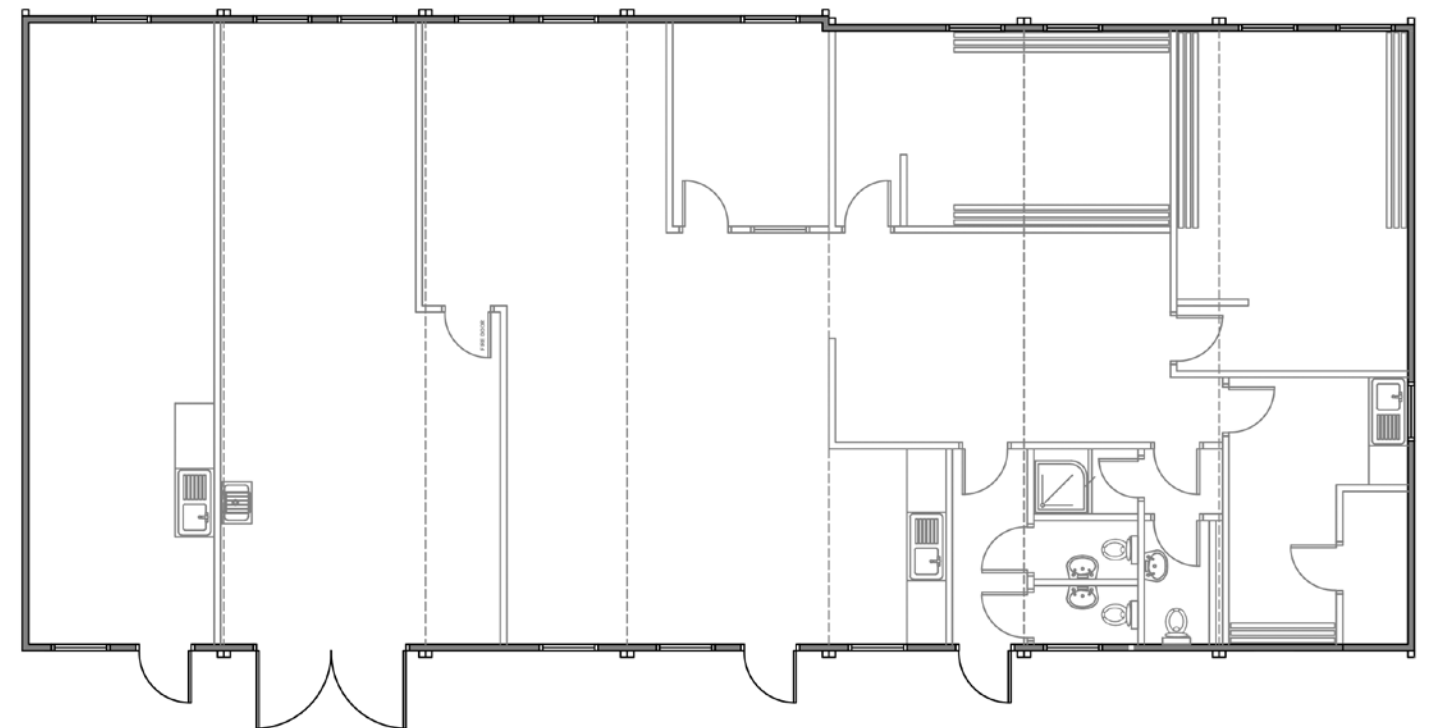

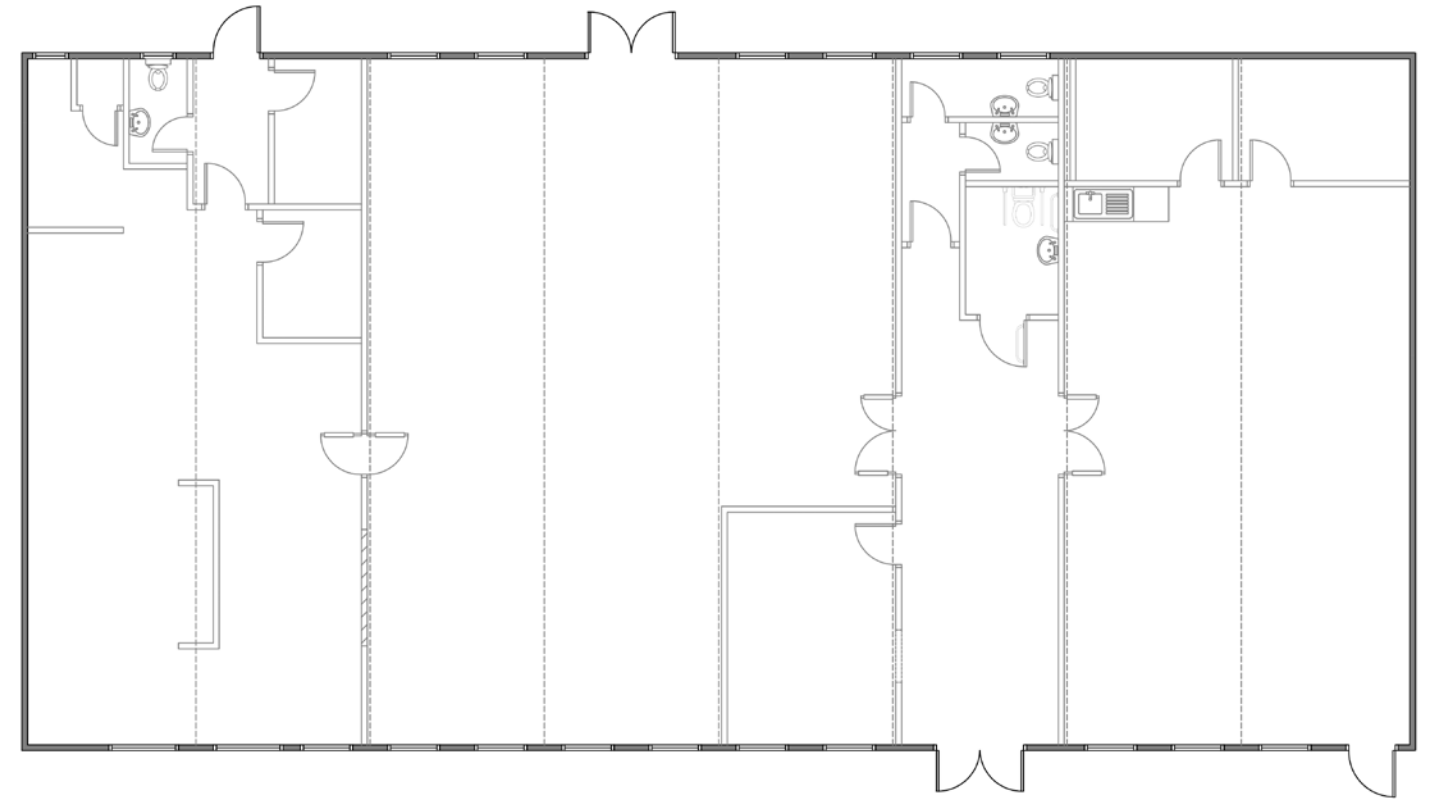

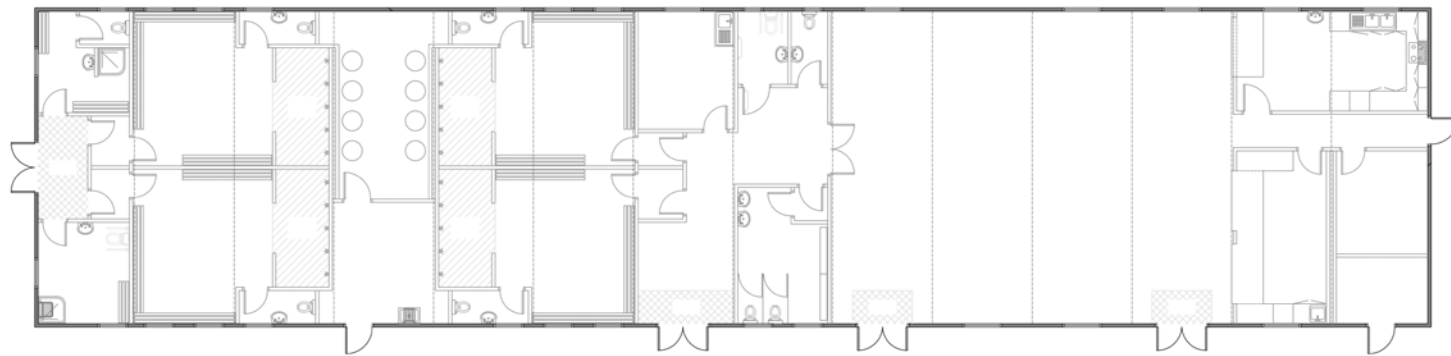

- Foundation installation
- External services to buildings
- Steps and ramps
- Building control approval
- Air conditioning
- Design service

We can provide additional services to our clients to assist in their projects.

We can create your desired layout.

Pleasley Pit Case Study

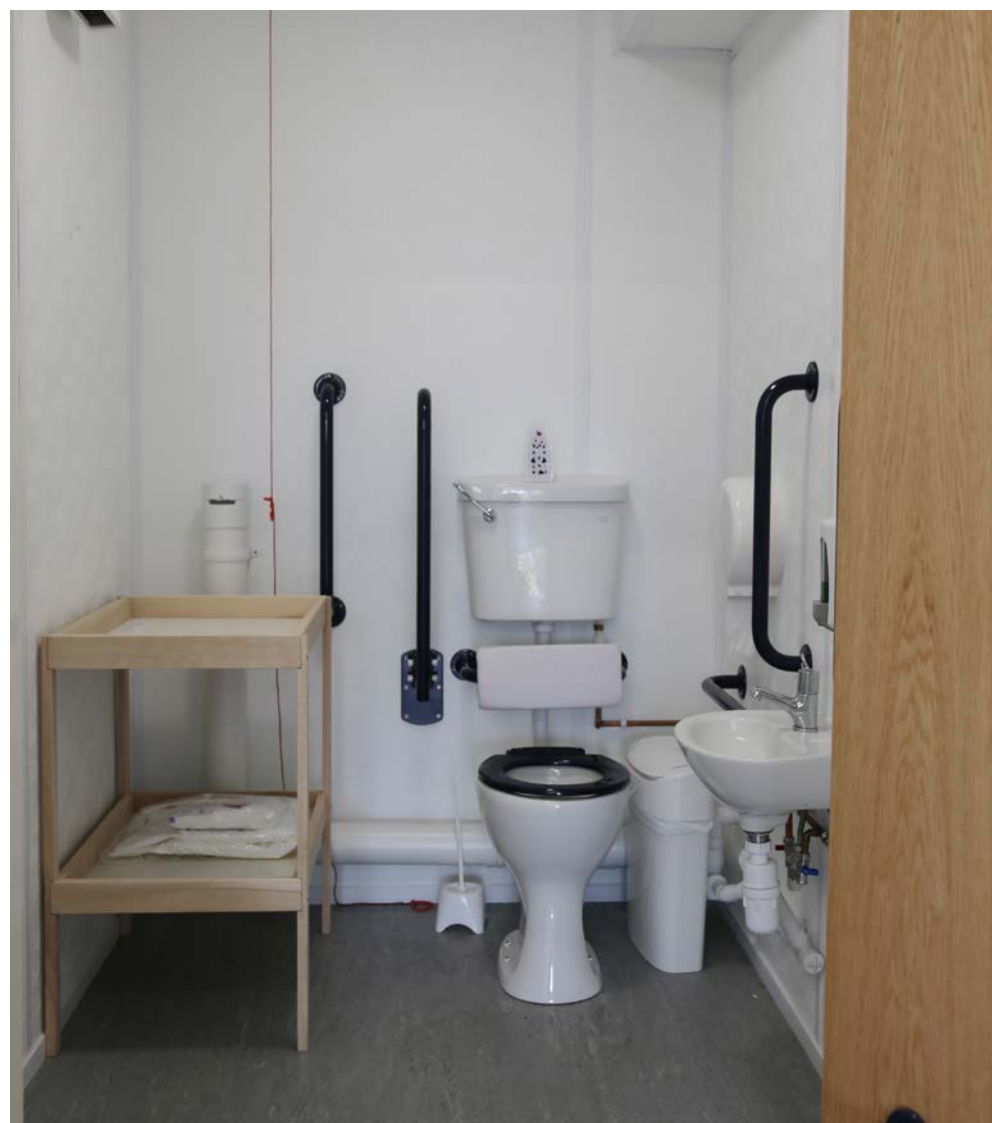

Pleasley Pit

Working with The Land Trust and Pleasley Pit committee, we were asked to provide premises for a new visitors centre, to allow for increased catering and café.

Facilities including a full working kitchen, large seating area and space for a shop or displays. There was also a need for a separate teaching space or community room, plus WC facilities to support the use and a separate office. We were also asked as part of the project to provide, external toilet block to be used if the visitors facility was closed.

Our scope was for a full turn key package to include the delivery and installation of the building, full external and ground works, timber cladding, car parking and fencing. We set the building into the ground to reduce heights and to allow for level approaches to all doors and remove the need for steps and ramps.

Stebbing Green Day Nursery Case Study.

Stebbing Green Day Nursery

Stebbing Green Day Nursery sits on an idyllic rural setting in close proximity to commuting routes such as A120 and Stansted Airport. Just 10 minutes from Great Dunmow, Braintree, 5 minutes from Great Notley, as well as 15 mins from the Channel's development in Chelmsford.

It has two purpose built buildings that nestle on 1.7 acres of land in the beautiful countryside, providing 7 cosy base rooms and three spacious gardens to encourage children to develop and explore.

Northampton Hospital Case Study.

Northampton Hospital

Northampton General Hospital (NGH) provides general acute services for a population of 426,500 in West Northamptonshire and hyper-acute stroke, vascular and renal services to people living throughout the whole of Northamptonshire.

The hospital is also an accredited cancer centre and provides cancer services to a wider population of 880,000 who live in Northamptonshire and parts of Buckinghamshire.

Containex.

Containex

Containex modular buildings are a flexible solution to accommodation requirements.

There are two basic options:

Standard Units available from stock which are 20' x 8' arriving flat-pack. This enables flexibility with regards to window and door position. The units can form individual units or be linked together to form larger open plan facilities. All units come pre-wired with electric lighting and power. They have a steel internal wall finish, vinyl floor covering and double glazed tilt and turn uPVC windows with shutters. Units can be double stacked if required.

Executive Units are bespoke and enables buildings to have a greater deal of flexibility in terms of internal configuration and fit out. They can be designed to stack three high and can be manufactured in colour of choice. The electric design is bespoke to each building. A free design service is available.

Options include:

- Feature windows and doors
- Glazed partitions
- Toilet facilities
- Kitchenettes
- Internal and external staircases
- Air conditioning

Refurbishment Service.

Refurbishment Service

Did you know that we can offer a bespoke refurbishment service?

As well as our standard open plan layouts, we can refurbish both our portable cabins and modular buildings to client specification.

Some of our fit-outs have included clubhouse and welfare facilities for sports clubs, classrooms and nurseries, commercial offices, canteens and many more.

CabinsGB was founded in 2010 with the goal of becoming the main supplier of portable cabins and modular buildings in the local area.
